

# Advanced Coding Services Registration/Medical Practices

Medical Billing Coding School Accredited With The AAPC

When completing a medical practice form. You are completing a registration form PER CLASS, with a list of team members connected to that class.

Example: "If you have two employees and they are taking two different types of courses, then you need to complete a registration for every unique CLASS, WORKSHOP OR BOOT CAMP.

We do this so we can clearly track and define medical practice payments and all students according to courses, workshops and bootcamps those medical practices enrolled that student in.

Any questions, please feel free to reach us at (602)469-1193

## **Name of Practice:**

Please indicate your corporate name filed with your state.

## **Practice Specialty Is:**

## **How many employees do you wish to enroll?**

Please be advised that the fees for Tuition, Workshops and Bootcamps are PER person.

## **Please list the first and last names of your team members here.**

## Name of Employee & AAPC Member ID (If Applicable)

If your office team member is taking a class that requires a prerequisite, we will need to verify the AAPC Member ID Certification Verification status for those employees. Please list here.
